

# JZY-1950H

FULLY AUTOMATIC FLUSH SEALING AND REPAIRING  
INTEGRATED EDGE BANDING MACHINE

LANGKAH MAJU MESIN INDO

# TECHNICAL PARAMETERS

New Technology Upgrade, New Upgraded Multi-Functional Combination, Automatic Belt Breaking, Double Sided Glue Coating, Mechanical Chain, Easy Installation, Smart Work

**Name : JZY-1950H Fully Automatic Head and Tail Sealing and Repairing Machine**

**Main Body Size : 109\*130\*56 cm**

**Feeding Motor : 120 W**

**Wider Extension : 30 cm**

**Trimming Motor : 800 W\*2**

**Feeding Motor : 25 W**

**Glue Pot Capacity : 1000ml**

**Heating Motor : 800 W**

**Polishing Motor : 180W\*2**

**Weight : 122 kg (with wooden box)**

Newly upgraded, the square rail slide is used to achieve contour trimming, and the 4-blade alloy arc knife is used to trim the board effect arc-shaped automatic trimming. Large-caliber dust suction is used, and the close fit dust suction effect reaches 99%. Crawler transmission uses steel rod slide rails, which makes the board feeding more stable and smooth. It also adds the function of cleaning the glue line, which can seal narrow boards and realize more edge sealing possibilities.

# APPLICABLE TO EDGE BANDING VARIOUS PANELS

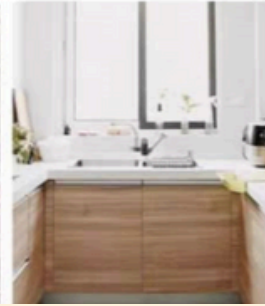

**Straight  
Edge  
Banding**

**Curved  
Edge  
Banding**

**Special-  
Shaped  
Edge  
Banding**

**Multilayer  
Board**

**Particle  
Board**

**ECO  
Board**

**Density  
Board**

Juzhiyuan is an innovative enterprise focusing on the research and development, production and sales of woodworking products. Its products include sliding table saws, edge banding machines, etc. It has won more than a dozen national patents. In 2015, it took the lead in launching the double-jaw saw. In 2019, it developed and launched the invisible guide rail dust-free double-jaw saw, which caused a very high response in the industry. It is known as a good helper for woodworking and the creator of professional sliding table saws.

STRAIGHT	AUTOMATIC FEEDING	AUTOMATIC BELT BREAK
UPPER & LOWER DOUBLE REPAIR	POLISHED ON BOTH SIDES	INTELLIGENT TEMPERATURE CONTROL
FOUR-EDGED ARC KNIFE	EFFICIENT VACUUMING	ALL TOGETHER

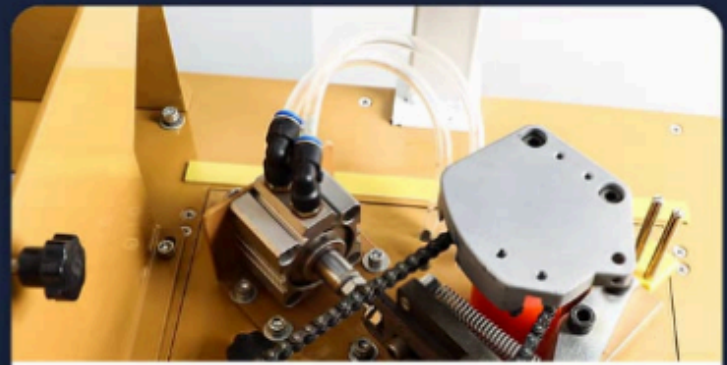

**BUY NOW**

### GLUE REMOVAL DEVICE

Double-Sided adhesive removal for cleaner look

### DOUBLE CYLINDER BELT FEEDING DEVICE

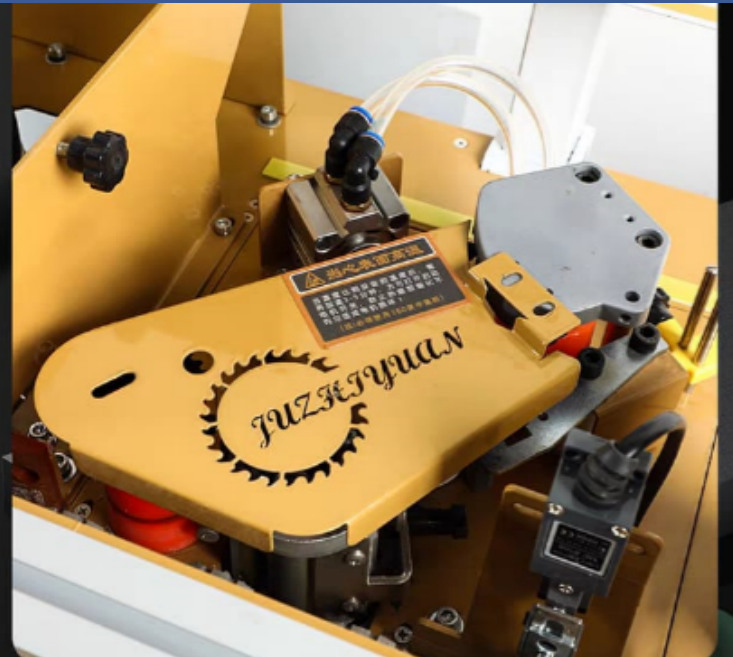

Cylinder guillotine has strong cutting force and can cut belts accurately and sensitively

## LET THE DETAILS MEET YOUR NEEDS

### ADJUSTABLE HEIGHT

The height can be adjusted according to different thickness

### 1000 ML GLUE POT

Increased capacity for longer use, avoid frequent glue addition, convenient and efficient

### DOUBLE BRUSH POLISHING DESIGN

180W High Power, High-Speed operation, up and down polishing, make the seal smooth

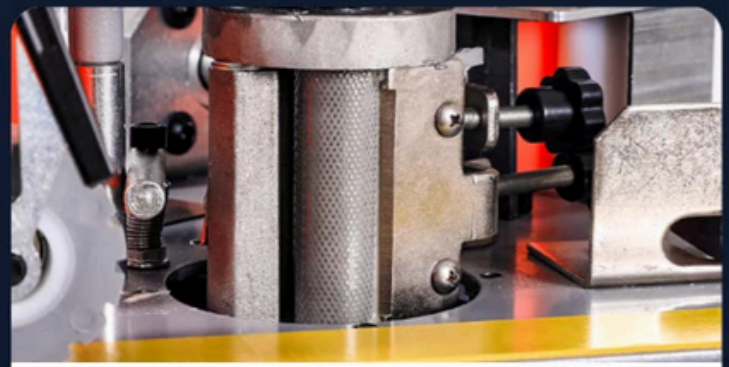

### DOUBLE SUCTION HOSE DESIGN

Zero dust effect, 99,99% dust removal effect, making healthier

**AUTOMATIC FEEDING CONVEYOR BELT**

Fully automatic is more convenient and can easily solve the trouble of manual board pushing, and can seal the board while pressing and sending the board, freeing your hands

**GLUE FIRMLY**

Automatically track the board, no glue breakage, even and stable glue coating

**30CM WIDENING**

**30 CM WIDE EXTENSION BOARD**

Widen extension board, make edge sealing easy

**JZY-1950H**

**全自动齐头齐尾封修一体机**  
Fully automatic flush sealing and repairing integrated machine

**FULLY AUTOMATIC OPERATION**

Easy to use and fast edge banding, Visual operation interface makes it easy to get started
