THE MAIN TECHNICAL PARAMETERS

Rated Voltage	220V	Edge Height	7-60mm
Working Pressure	0.4-0.6mpa	Edge Model	Straight Line, Curve
Heating Power	800w	Glue Capacity	1000ml
Belt Feeding Power	25w	Overall Size	50*30*27cm
Edge Speed	0-10m/min	Machine Net Weight	15kg

Particle Board

Ecological Board

Multilayer Board

MDF

Furniture

Decorative Plates

SMART CONTROL PANEL

After setting according to the relevant parameters, the machine will automatically run to the set state, the operation is stable and accurate

PRODUCT DETAILS

The Excellence of Quality

Good Quality Gas Steel

High strength, corrosion resistance, long service life, beautiful appearance, reliable performance

Glue Firmly

Automatically track the board, no glue breakage, evenly glued, stable and more firmly pasted

Edge Polishing Device

Rugged and durable, easy to operate, quality assurance

Thickened Material

The material is strong and durable, the quality is assured

Independent Button
It is more convenient to adjust the machine operation

SMART CONTROL PANEL

After setting according to the relevant parameters, the machine will automatically run to the set state, the operation is stable and accurate

Independent Button

Run Smoothly

Easy to Operate

Transfer device

Granule inlet

Height adjustment

Front and rear adjustment
